

UNO®

THE IDEA IS QUITE SIMPLE

unnu is a furniture range in a stylish design with functions so well thought out that the overall solution is a treat for both eyes and ears. Many of the functions are mainly to insure a stylish decoration including sound and picture. All the modules can be combined and are produced in MDF. They can hide all that needs to be hidden, and let design and sound dominate the room.

The connection between quality, functionality and aesthetics is nothing less than perfect.

The unnu furniture are produced and fully assembled in Denmark – and we love the details: Special designed metal angles that provides the furniture with a unique strength, movable back plates to hide all the cables, holes in the top and bottom for cables to go in and out of the furniture and last but not least, a nice finish in a silky lacquer. All of it done with great precision and regard for aesthetic and sound experience.

The modules can be combined to match any need or interior design. They can be placed on the floor on feet, stands or wheels – or be mounted on the wall for a more visually light expression. The unnu furniture are available with wooden doors and drawers – or doors in exclusive fabric to hide speakers and other equipment and still control everything with your remote without opening the doors.

Simple, elegant and beautiful.

DEPTH 36,5 CM

MODEL 120S

PROJECTOR DRAWER

With the new unnu projector solution it is now possible to see the big movie and sports event in your livingroom.

The new unnu projector drawer is designed to store a short throw projector which gives you the possibility to project 100 inches on to your wall.

The single and elegant solution is only visible when you want it to be.

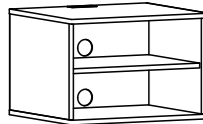

The drawer fits model 210Large. This model is 36,5 cm deep.

Contact your retailer or unnu directly for information on which projectors that will fit in the unnu projector drawer.

The metal part that hold and locks the projector in the drawer has patent pending: DK 2017 70363

DEPTH 45 CM
